

We claim:

1. A method of managing risk in a security that is based on the prospective income of a performer, the method comprising:
 - a) defining an asset value based on the prospective income of the performer, the asset value defining a security value;
 - b) defining a minimum acceptable final valuation;
 - c) establishing a first account; and
 - d) receiving into the first account funds in an amount substantially equal to or greater than the minimum acceptable final valuation.
2. The method of claim 1 wherein the minimum acceptable valuation is equal to the asset value.
